## ***INDEPENDENT AUDITORS' REPORT***

To the Honorable County Judge and  
Members of the Commissioners' Court of  
Burlleson County, Texas:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Burlleson County, Texas (the "County"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County as of September 30, 2020, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedules of changes in net pension and total other postemployment benefits liability and related ratios, and schedule of contributions, identified as Required Supplementary Information on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining statements and schedules are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

***MANAGEMENT'S DISCUSSION  
AND ANALYSIS***

(This page intentionally left blank)

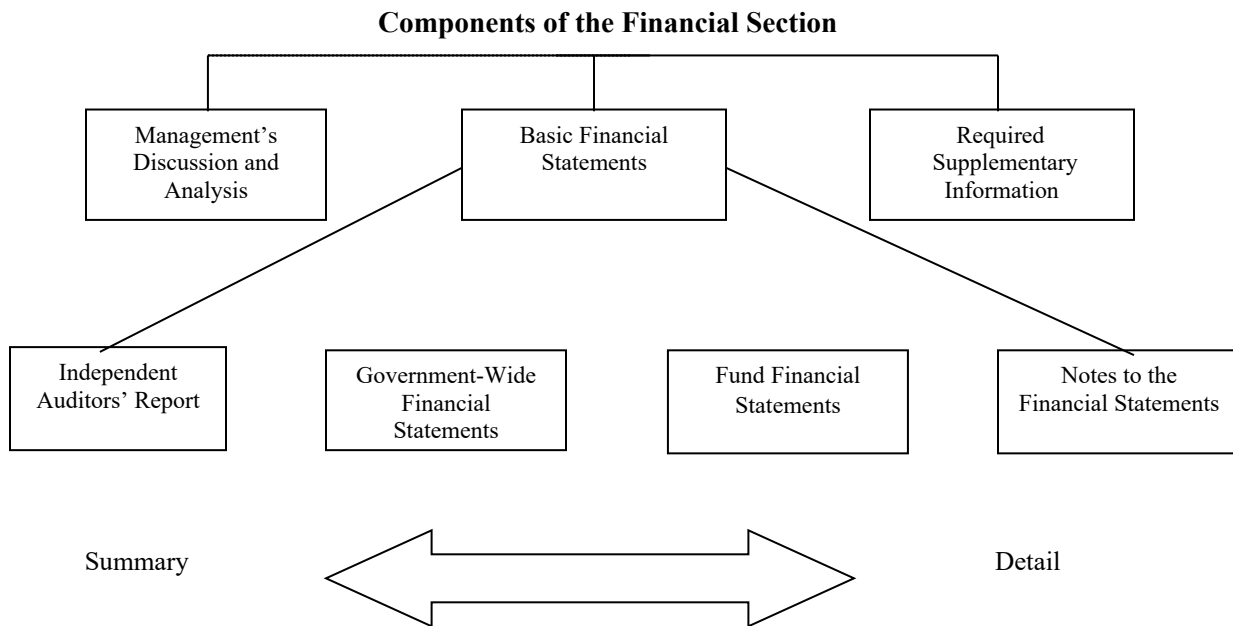

# BURLESON COUNTY, TEXAS

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### For the Year Ended September 30, 2020

The purpose of the Management's Discussion and Analysis (MD&A) is to give the readers an objective and easily readable analysis of the financial activities of Burleson County, Texas (the "County") for the year ending September 30, 2020. The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analysis of the County's activities, compares current year results with those of the prior year, and discusses the positive and negative aspects of that comparison. Please read the MD&A in conjunction with the County's financial statements, which follow this section.

### THE STRUCTURE OF OUR ANNUAL REPORT

The County's basic financial statements include (1) government-wide financial statements, (2) individual fund financial statements, and (3) notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

### GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information for the County as a whole. These statements include transactions and balances relating to all assets, including infrastructure capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of the County as an economic entity. The Statement of Net Position and the Statement of Activities, which appear first in the County's financial statements, report information on the County's activities that enable the reader to understand the financial condition of the County. These statements are prepared using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account even if cash has not yet changed hands.

The Statement of Net Position presents information on all of the County's assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Other nonfinancial factors, such as the County's property tax base and the condition of the County's infrastructure, need to be considered to assess the overall health of the County.

**BURLESON COUNTY, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

The Statement of Activities presents information showing how the County's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows, using the accrual method rather than modified accrual that is used in the fund level statements.

The Statement of Net Position and the Statement of Activities present the County's financials in one type of activity:

1. *Governmental Activities* – The County's basic services are reported here such as general administration, financial administration, public facilities, judicial, public safety, health and welfare, public transportation, and legal services. Interest and fiscal charges on long-term debt are also reported here. Property tax, sales tax, charges for services, and intergovernmental revenue finance most of these activities.

The government-wide financial statements can be found after the MD&A.

## **FUND FINANCIAL STATEMENTS**

Funds may be considered as operating companies of the parent corporation, which is the County. They are usually segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance related legal reporting requirements. The two categories of County funds are governmental and fiduciary.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term outflows and inflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 22 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, road and bridge, and miscellaneous grant funds which are considered to be major funds for reporting purposes. The debt service fund is not considered a major fund for reporting purposes, but the County has elected to present as major due to its significance.

The County adopts an annual appropriated budget for its general, road and bridge, debt service, miscellaneous grants, and certain special revenue funds. Budgetary comparison schedules have been provided for the general, road and bridge, debt service, and certain special revenue funds to demonstrate compliance with these budgets.

**BURLESON COUNTY, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

**Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accrual basis of accounting is used for fiduciary funds. The County maintains nine fiduciary funds. The County's fiduciary activities are reported separately in a statement of fiduciary net position.

**Notes to Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are the last section of the basic financial statements.

**Other Information**

In addition to basic financial statements, this MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The RSI includes budgetary comparison schedules for the general and road and bridge funds, schedules of changes in net pension and total other postemployment benefits (OPEB) liability and related ratios and schedule of contributions for the Texas County and District Retirement System, and schedule of changes in total OPEB liability and related ratios for postemployment healthcare benefits. RSI can be found after the notes to the basic financial statements.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of the County's financial position. Assets and deferred outflows of resources exceed liabilities and deferred inflows of resources by \$22,504,232 as of September 30, 2020. This compares with \$18,933,661 for the prior fiscal year. A portion of the County's net position, 42%, reflects its investments in capital assets (e.g., land, buildings and improvements, equipment, and infrastructure), less any outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

<b>Total Net Position</b>	<b>\$ 22,504,232</b>	<b>\$ 18,933,661</b>

A portion of the County's net position, \$8,482,937 or 38%, represents resources that are subject to external restriction on how they may be used. The County's unrestricted net position, \$4,564,859 or 20%, may be used to meet the County's ongoing obligation to citizens and creditors. The overall net position increased by \$3,570,571. Current and other assets increased \$3,820,416 mainly due to operating results. The deferred outflows of resources decreased by \$529,616 mainly due to deferred gains on investment earnings on pension plan assets. The total liabilities decreased by \$760,549 mainly due to the decrease in pension liabilities. The deferred inflows of resources increased by \$423,109 mainly due to the increase in investment earnings of pension plan assets.

<b>Ending Net Position</b>	<u>\$ 22,504,232</u>	<u>\$ 18,933,661</u>

Total governmental revenues increased compared to the prior year, increasing \$2,562,098 or 17%. This increase is primarily due to an increase in property taxes of \$1,967,112 and an increase in operating grants and contributions of \$689,895. The increase in property taxes and operating grants is mainly due to the assessed property value increase and more grant funds received in the current year, respectively.

Governmental expenses increased from the prior year by \$653,758 or 6%. The increase is primarily due to increases in general administration, public safety and public transportation having increases in payroll and related expenses.

**BURLESON COUNTY, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

**FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS**

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

**Governmental Funds** – The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the year.

The County's governmental funds reflect a combined fund balance of \$14,173,096. Of this, \$5,690,159 is unassigned and available for day-to-day operations of the County and \$8,482,937 is restricted for various purposes.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$5,690,159. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 69% of total general fund expenditures. The fund balance of the general fund reported an increase of \$2,025,734, mainly due to more property tax revenue from the increase of property values and the tax rate, an increase in permits issued, an increase in tax collector fees, and an increase in intergovernmental revenue. Payroll expenditures also increased due to the filling of vacancies at the end of prior year and additional employees hired in the current year.

The road and bridge fund reported an increase of \$1,153,120 in fund balance primarily due to an increase in property tax revenue during the year offset with lower expenditures. All of the road and bridge fund balance, \$7,260,145, is restricted.

The debt service fund reported an increase of \$3,894 in fund balance. The increase is due to property taxes collected in excess of debt service payments. The current debt service fund balance of \$94,304 is restricted for payments of principal and interest on debt.

The miscellaneous grants fund reported an increase \$2,747 of fund balance. The increase is due to an increase in grant funds received in excess of grant fund expenditures. The current miscellaneous grants fund balance of \$101,717 is restricted for payments of grant expenditures.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The general fund's actual revenues were less than the final budget by \$48,777 during the year. This negative variance is largely the result of less charges for services and fine and forfeitures revenues than expected.

The general fund expenditures were less than the final budget by \$1,426,786 mainly due to less district court, county attorney, sheriff, jail and miscellaneous expenditures than expected and the result of a County-wide effort to keep expenditures at or below budget.

**CAPITAL ASSETS**

At the end of the year, the County's governmental activities had invested \$12,772,511 in a variety of capital assets and infrastructure, net of accumulated depreciation. This represents a net decrease of \$57,669.

**BURLESON COUNTY, TEXAS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)**  
**For the Year Ended September 30, 2020**

Major capital asset events during the current year included the following:

- Routers and software updates - \$94,390
- Eight 2020 Chevrolet Tahoe vehicles for public safety use - \$368,025
- Trucks, tractors, and equipment purchases for road and bridge use - \$424,860

More detailed information about the County's capital assets is presented in note III.C. to the financial statements.

**LONG-TERM DEBT**

At the end of the year, the County reported total certificates of obligation of \$3,035,000. The County also reported \$185,000 of refunding bonds outstanding.

More detailed information about the County's long-term liabilities is presented in note III.D. to the financial statements.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The County has continued the permanent road program to solidify the infrastructure of the County. The County has approved the tax rate of \$0.56 for the 2020/2021 fiscal year.

The County continues to face budgetary pressures on the expenditure side related to the economic conditions in the County and the COVID-19 pandemic. Although continued growth and stability are anticipated in fiscal year 2021 and beyond, there can be no assurances that the County's economic stability will not be negatively affected near-term by the pandemic that is still affecting the County.

**CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide a general overview of the County's finances. Questions concerning this report or requests for additional financial information should be directed to the County Auditor's Office, Burleson County, 100 W. Buck Street, Suite 407, Caldwell, Texas 77836.

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2020

Net change in fund balances - total governmental funds \$ 3,307,599

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	1,043,733
Depreciation expense	(1,093,623)
Net effect of disposals	(7,779)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Changes in unavailable revenue - fines and fees	(13,468)
Changes in unavailable revenue - property taxes	187,848

Net pension and total other postemployment benefits (OPEB) liability and deferred outflows and deferred inflows related to the net pension and total OPEB liability are not reported in the governmental funds.

Net pension liability	1,225,259
Deferred outflows - pensions	(813,379)
Deferred inflows - pensions	(355,732)
Deferred outflows - OPEB - GTLF	59,662

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS**  
For the Year Ended September 30, 2020

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

Burleson County, Texas (the “County”) is an independent government entity created by an act of the Texas Legislature. The County is governed by a Commissioners’ Court, composed of four County Commissioners and the County Judge, all of whom are elected officials.

The County’s financial statements include the accounts of all County operations. The County provides a vast array of services including financial administration, judicial, health and welfare, public facilities and transportation, general administration, public safety, and legal.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the County’s financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the County is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the County’s financial reporting entity status is that of a primary government are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

**B. Government-Wide Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. The County has no business-type activities.

**C. Basis of Presentation – Government-Wide Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**D. Basis of Presentation – Fund Financial Statements**

The fund financial statements provide information about the County’s funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The County reports the following governmental funds:

The *general fund* is used to account for and report all financial resources not accounted for and reported in another fund. The principal sources of revenues include local property taxes, sales tax, fines and forfeitures, and charges for services. Expenditures include general administration, financial administration, public facilities, judicial, public safety, health and welfare, and legal. The general fund is always considered a major fund for reporting purposes.

The *debt service fund* is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The primary source of revenue for debt service is local property taxes. The debt service fund did not meet the technical criteria to be presented as a major fund; however, due to its significance, the County has elected to present it as major.

The *special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The following special revenue fund is reported as a major fund for reporting purposes:

*Road and bridge fund*– This fund is used to account for revenues of property taxes levied and vehicle registration fees. Uses of funds are restricted for the maintenance of roads, bridges, and the operations of related facilities. All precinct operations, as well as permanent road monies, are accounted for in these funds.

*Miscellaneous grants fund*– This fund is used to account for revenues and expenditures related with grant funds. The primary source of revenue is grants. Uses of funds are restricted to grant related expenditures.

Additionally, the County reports the following fund type:

*Fiduciary funds* are used to account for and report resources held for the benefit of parties outside the government. These funds are used to account for assets that the County holds for others in an agency capacity.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

**E. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current*

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

*financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the County.

**F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**1. Cash and Cash Equivalents**

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, balances in a statewide investment pool, and short-term investments with original maturities of three months or less from the date of acquisition.

**2. Investments**

Investments, except for certain investment pools, commercial paper, money market funds, and investment contracts, are reported at fair value. The investment pool operates in accordance with appropriate state laws and regulations and is reported at amortized cost. Money market funds, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations and commercial paper that have a remaining maturity of one year or less upon acquisition, are reported at amortized cost. Investments in nonparticipating interest earning contracts, such as certificates of deposit, are reported at cost.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The County has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Government Code. In summary, the County is authorized to invest in the following:

- Direct obligations of the U.S. Government or U.S. Government agencies
- Fully collateralized certificates of deposit
- Money market mutual funds that meet certain criteria
- Bankers' acceptances
- Statewide investment pools

**3. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful years:

<u>Asset Description</u>	<u>Estimated Useful Life</u>
Buildings and improvements	20 to 40 years
Infrastructure	15 to 30 years
Equipment	3 to 30 years

**4. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time.

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension/other postemployment benefits (OPEB) activities are amortized over the average of the expected service lives of pension/OPEB plan members, except for the net differences between the projected and actual investment earnings on the pension/OPEB plan assets, which are amortized over a period of five years.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

- For employer pension/OPEB plan contributions that were made subsequent to the measurement date through the end of the County's fiscal year, the amount is deferred and recognized as a reduction to the net pension/OPEB liability during the measurement period in which the contributions were made.

At the fund level, the County has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and fines. These amount are deferred and recognized as inflows of resources in the period that the amounts becomes available.

**5. Compensated Employee Absences**

The County provides its employees with vacation and sick leave. Sick leave may be accumulated from year to year up to 16 weeks. Vacation is to be used prior to year end but may be carried over up to the limitations outlined by County policy. Exceptions to the maximum accruals can only be approved by the Commissioners' Court upon request of the employee's supervisor. Upon termination, any accumulated vacation time will be paid; however, no accumulated sick leave will be paid. The estimated amount of compensation for services provided that is expected to be liquidated with expendable, available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it when it matures or becomes due. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable, available financial resources are maintained separately and represent a reconciling item between the fund and government-wide presentations.

**6. Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, if material. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The property tax rate is allocated each year between the general, road and bridge, and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with interest earned in the debt service fund.

**7. Net Position Flow Assumption**

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

**8. Fund Balance Flow Assumptions**

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**9. Fund Balance Policies**

Fund balances of governmental funds are reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact are classified as nonspendable fund balance. Amounts that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions are classified as restricted.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision-making authority. The Commissioners' Court is the highest level of decision-making authority for the County that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The Commissioners' Court may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The County strives to maintain unrestricted fund balance at a level adequate to provide for unanticipated expenditures of a nonrecurring nature and to meet unexpected increases in service delivery costs. The target level for the general fund unrestricted fund balance is at least 20% of budgeted fund expenditures. The road and bridge funds have target levels of 18% to 25% of budgeted fund expenditures but will be subject to a 50% unrestricted fund balance ceiling. The County allows for the fund balance to exceed limits if there is a plan to commit those funds during the next two budget cycles.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

**10. Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**11. Pensions**

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCDRS's fiduciary net position have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**12. Other Postemployment Benefits**

The County participates in a single-employer, unfunded, defined benefit group-term life insurance plan operated by TCDRS known as the Group Term Life Fund (GTLF). This is a voluntary program in which participating member counties may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The funding policy for the GTLF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. (GASB 75). Benefit payments are treated as being equal to the employer's yearly contributions for retirees. Benefit payments and refunds are due and payable in accordance with the benefit terms. Information about the County's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense is provided by TCDRS from reports prepared by their consulting actuary.

**13. Postemployment Healthcare Benefit**

The County provides medical benefits to eligible retirees and dependents through an unfunded single-employer defined benefit plan (the "Plan"). The employee must meet the rule of 75 (the sum of age and years of service equals at least 75) to be eligible for retirement. The employee must make application for service retirement pension payments with TCDRS, and be approved for pension payments from TCDRS, prior to retirement. The retiree pays a percentage of the required contribution based on their age at retirement. The percentage is 75% for retirement prior to age 60 and 50% for age 60 and later. The retiree pays the full cost of additional dependent coverage elected less \$50 per month paid by the County. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75. Information about the County's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense is provided by the County's consulting actuary.

**G. Revenues and Expenditures/Expenses**

**1. Program Revenues**

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

**2. Property Taxes**

Property taxes are recorded as revenue when levied for the current year and due, payable, and collected in the current year. Uncollected amounts at year end are reported as a deferred inflow of resources. Delinquent property taxes collected within 60 days subsequent to year end were not considered material.

The property tax calendar dates are:

Levy date and due date – October 1  
Collection dates – October 1 through January 31  
Lien date – February 1

The County bills and collects its own taxes and those for certain government entities within the County. Collections of the property taxes and subsequent remittances to the proper entities are accounted for in the tax assessor's agency fund. Tax collections deposited for the County are distributed on a periodic basis to the general, road and bridge, and debt service funds of the County. This distribution is based upon the tax rate established for each fund by order of the Commissioners' Court for the tax year for which the collections are made.

The appraisal of property within the County is the responsibility of the County-wide appraisal district, which is required under the Property Tax Code to assess all property within the appraisal district on the basis of 100% of its appraised value, and is prohibited from applying any assessment ratios. The appraisal district must review the value of the property within the County every three years unless the County, at its own expense, requires more frequent reviews. The County may challenge the appraised values through various appeals and, if necessary, legal action. Under this legislation, the County sets tax rates on County property.

**II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at fiscal year end. The appropriated budget is prepared by fund. Any transfers of appropriations are first approved by the Commissioners' Court. The legal level of control is the department level in the general fund and road and bridge fund and the fund level for all other funds.

**III. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

As of September 30, 2020, the County had the following investments:

<u>Investment Type</u>	<u>Value</u>	<u>Weighted Average Maturity (Years)</u>
Certificates of deposit	\$ 519,772	0.75
Texas CLASS	5,697,096	0.06
<b>Total</b>	<u>\$ 6,216,868</u>	
Portfolio weighted average maturity		0.12

*Interest rate risk.* In accordance with its investment policy, the County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less.

*Credit risk.* State law and the County’s investment policy limits investments to obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than “A” or its equivalent. Further, commercial paper must be rated not less than “A-1” or “P-1” or an equivalent rating by at least two nationally recognized credit rating agencies. As of September 30, 2020, the County’s investments in the investment pool were rated “AAAm” by Standard & Poor’s.

*Custodial credit risk – deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the County’s deposits may not be returned to it. The County’s investment policy requires funds on deposit at the depository bank to be collateralized by securities and FDIC insurance. As of September 30, 2020, market values of pledged securities and FDIC insurance exceeded bank balances.

**Texas CLASS**

The Texas Cooperative Liquid Assets Securities System Trust (CLASS) is a public funds investment pool under Section 2256.016 of the Public Funds Investment Act, Texas Government Code, as amended. CLASS is created under an amended and restated trust agreement, dated as of December 14, 2011 (the “Agreement”), among certain Texas governmental entities investing in CLASS (the “Participants”), with Cutwater Investor Services Corporation as program administrator and Wells Fargo Bank Texas, NA as custodian. CLASS is not SEC registered and is not subject to regulation by the State. Under the Agreement, however, CLASS is administered and supervised by a seven-member board of trustees (the “Board”), whose members are investment officers of the Participants, elected by the Participants for overlapping two-year terms. In the Agreement and by resolution of the Board, CLASS has contracted with Cutwater Investors Service Corporation to provide for the investment and management of the public funds of CLASS. Separate financial statements for CLASS may be obtained from CLASS’ website at [www.texasclass.com](http://www.texasclass.com).

**Federal Arbitrage**

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed, or are not performed correctly, a substantial liability to the County could result. The County will engage an arbitrage consultant to perform the calculations in accordance with the rules and regulations of the IRS as needed.

**E. Interfund Transactions**

The composition of interfund balances as of September 30, 2020 is as follows:

Due From	Due To	Amounts
Road and bridge fund	General fund	\$ 3,258

**IV. OTHER INFORMATION**

**A. Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. In addition, the County participates along with 254 other entities in the Texas Association of Counties (TAC) Workers' Compensation Self-Insurance Fund. TAC created this pool in 1974 to insure the County for workers' compensation related claims. The County also provides employee benefits, including medical and life insurance, which the County obtains through Scott and White for medical insurance and other vendors for life insurance. Coverages and workers' compensation and unemployment insurance are obtained from TAC (the "Pool"). This Pool purchases commercial insurance at group rates for participants in the Pool. The County has no additional risk or responsibility to the Pool, outside of payment of insurance premiums. The County has not significantly reduced insurance coverage or had settlements that exceeded coverage amounts for the past three years.

The County is a defendant in several lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the option of the County's management that resolution of these matters will not have a material adverse effect on the financial condition of the County,

**B. Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency, and amount of payout and other economic and social factors. No claim liabilities are reported at year end.

The continued spread of the COVID-19 pandemic has given rise in uncertainties that may have a significant negative impact on the operating activities and results of the County. The occurrence and extent of such impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) the effects on the financial markets, and (iv) the effects on the economy overall, all of which are uncertain.

**C. Pension Plan**

**Texas County and District Retirement System**

**Plan Description**

TCDRS is a statewide, agent multiple-employer, public-employee retirement system. TCDRS serves 780 actively participating counties and districts throughout Texas. Each employer maintains its own customized plan of benefits. Plan provisions are adopted by the Board of Directors of each employer, within the options available in the TCDRS Act. Because of that, the County has the flexibility and local control to select benefits and pay for those benefits based on its needs and budgets.

Each employer has a defined benefit plan that functions similarly to a cash balance plan. The assets of the plans are pooled for investment purposes, but each employer's plan assets may be used only for the payment of benefits to the members of that employer's plan. In accordance with Texas law, it is intended that the pension plan be construed and administered in a manner that the retirement system will be considered a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TCDRS issues a publicly available comprehensive annual financial report that can be obtained at [www.tcdrs.org](http://www.tcdrs.org).

All eligible employees (except temporary staff) of the County must be enrolled in TCDRS.

**Benefits Provided**

TCDRS provides retirement, disability, and death benefits. The benefit provisions are adopted by the Commissioners' Court within the options available in Texas state statutes governing TCDRS. Members can retire at age 60 and above with eight or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after eight years of service, but must leave their accumulated contributions in the plan to receive any County-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by the County.

Benefit amounts are determined by the sum of the employee's contribution to TCDRS, with interest, and County-financed monetary credits. The level of these monetary credits adopted by the Commissioners' Court within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the County's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the County-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The Commissioners' Court adopted the rate of 7% as the contributed rate payable by the employee members for calendar year 2020. The Commissioners' Court may change the employee contribution rate and the County contribution rate within the options available in the TCDRS Act.

Employees Covered by Benefit Terms

At the December 31, 2019 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	75
Inactive employees entitled to, but not yet receiving, benefits	118
Active employees	155
<b>Total</b>	<b>348</b>

Contributions

A combination of three elements funds each employer's plan: employee deposits, employer contributions, and investment income.

- The deposit rate for employees is 4%, 5%, 6%, or 7% of compensation, as adopted by the employer's governing body.
- Participating employers are required by law to contribute at actuarially determined rates, which are determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method.
- Investment income funds a large part of the benefits employees earn.

Employers have the option of paying more than the required contribution rate each year. Extra contributions can help employers "prefund" benefit increases, such as a cost-of-living adjustment to retirees, and they can be used to help offset or mitigate future increases in the required rate due to negative plan experience. There are two approaches for making extra contributions:

- (a) paying an elected contribution rate higher than the required rate and
- (b) making an extra lump-sum contribution to the employer account.

Employees for the County were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the County were 6.79% and 7.02% in calendar years 2019 and 2020, respectively. The County contributions to TCDRS for the fiscal year ended September 30, 2020 were \$370,178 and were equal to the required contributions.

Net Pension Liability

The County's Net Pension Liability (NPL) was measured as of December 31, 2019 and the Total Pension Liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Actuarial Assumptions

The actuarial assumptions that determined the TPL as of December 31, 2019 were based on the results of an actuarial experience study for the period January 1, 2013 through December 31, 2016, except where required to be different by Governmental Accounting Standards Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68).

Key assumptions used in the December 31, 2019 actuarial valuation are as follows:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in the which the contributions are reported.
Actuarial Cost Method	Entry age normal
Amortization Method	Level of percentage of payroll, closed
Remaining Amortization Period	9.1 years
Smoothing Period	5 years
Recognition Method	Non-asymptotic
Corridor	None
Inflation	2.75%
Salary Increases	Varies by age and service. 4.90% average over career, including inflation
Investment Rate of Return	8.00%
Cost-of-Living Adjustments	Cost-of-living adjustments for the County are not considered to be substantively automatic under GASB 68. Therefore, an assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
For the Year Ended September 30, 2020

The long-term expected rate of return of TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The target allocation and best estimate of geometric real rate of return for each major asset class are summarized in the following table:

Asset Class	Benchmark	Target Allocation	Rate of Return (Expected minus Inflation)
US Equities	Dow Jones U.S. Total Stock Market Index	14.50%	5.20%

Private Real Estate Partnerships	Cambridge Associates Real Estate Index	6.00%	5.50%
Hedge Funds	Hedge Fund Research, Inc. (HFRI) Fund of Funds Composite Index	8.00%	2.30%

Discount Rate

The discount rate used to measure the TPL was 8.1%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Changes in the NPL

Sensitivity of the NPL to Changes in the Discount Rate

The following presents the NPL of the County, calculated using the discount rate of 8.1%, as well as what the County's NPL would be if it were calculated using a discount rate that is one percentage point lower (7.1%) or one percentage point higher (9.1%) than the current rate:

	1% Decrease in Discount Rate (7.1%)	Discount Rate (8.1%)	1% Increase in Discount Rate (9.1%)

**D. Other Postemployment Benefits**

**1. Texas County and District Retirement System - Optional Group Term Life Fund**

Plan Description

The County participates in a defined benefit OPEB plan administered by the TCDRS. TCDRS administers the defined benefit group-term life insurance plan known as the GTLF. This is a voluntary program in which participating member counties may elect, by ordinance, to provide group term life insurance coverage for their active members, including or not including retirees. Employers may terminate coverage under, and discontinue participation in, the GTLF by adopting an ordinance at any point during the year to be effective the following January 1.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

The member county contributes to the GTLF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The premium rate is expressed as a percentage of the covered payroll of members employed by the participating employer. There is a one-year delay between the actuarial valuation that serves as a basis for the employer contribution rate and the calendar year when the rate goes into effect. The funding policy for the GTLF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75. As such, the GTLF is considered to be a single-employer unfunded OPEB defined benefit plan with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The contributions to the GTLF are pooled for investment purposes with those of the Pension Trust Fund (PTF). The TCDRS Act (the "Act") requires the PTF to allocate a portion of investment income to the GTLF on an annual basis each December 31 based on the fund value in the GTLF during the year.

Benefits

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$5,000. As the GTLF covers both active and retiree participants with no segregation of assets, the GTLF is considered to be an unfunded OPEB plan (i.e., no assets are accumulated). Participation in the GTLF as of December 31, 2019 is summarized below:

Inactive employees or beneficiaries currently receiving benefits	55	
Inactive employees entitled to, but not yet receiving, benefits	33	
Active employees	155	
<b>Total</b>	243	

Total OPEB Liability

The County's total OPEB liability of \$366,934 was measured as of December 31, 2019 and was determined by an actuarial valuation as of that date.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Actuarial Assumptions and Other Inputs

The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount rate*	2.74%
Mortality - service retirees	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Mortality - disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

\*The discount rate was based on 20-Year Bond GO Index published by bondbuyer.com as of the measurement date of December 31, 2019.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period January 1, 2013 to December 31, 2016.

**2. Postemployment Healthcare Benefits**

Plan Description

The County provides medical benefits to eligible retirees and dependents through an unfunded single-employer defined benefit plan (the "Plan"). The employee must meet the rule of 75 (the sum of age and years of service equals at least 75) to be eligible for retirement. The employee must make application for service retirement pension payments with the TCDRS, and be approved for pension payments from TCDRS, prior to retirement. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75.

**BURLESON COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**  
**For the Year Ended September 30, 2020**

Benefits

The retiree pays a percentage of the required contribution based on their age at retirement. The percentage is 75% for retirement prior to age 60 and 50% for age 60 and later. The retiree pays the full cost of additional dependent coverage elected.

Participation in the Plan as of September 30, 2020 is summarized below:

\* Only three years of information is currently available. The County will build this schedule over the next seven-year period.

\*\* Due to the GTLF being considered an unfunded OPEB plan under GASB 75, benefit payments are treated as being equal to the employer's yearly contributions for retirees.

**Notes to Required Supplementary Information:**

1. Valuation Date:

Actuarially determined contribution rates are calculated on a calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported.

2. Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Entry age normal
Discount rate	2.74%
Mortality - service retirees	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Mortality - disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

3. Other Information:

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB 75 to pay related benefits.

The discount rate was based on 20-Year Bond GO Index published by bondbuyer.com as of the measurement date of December 31, 2019.

There were no benefit changes during the year.
